Subject: PCard-14-2009: Accounting Code 'Favorites' Feature Fixed in Access Online

As a follow-up to a message sent on March 6th, **PCard-08-2009: Accounting Code and Re-allocating Guidelines in Access Online**, as of April 15th, US Bank has corrected the validation defect in the accounting '*favorites*' feature and the '*favorites*' that had been saved prior to the validation being corrected were deleted.

Cardholders may now go back into AXOL and add their accounting code '*favorites*' back to their profiles by using the '*search*' feature and then saving their '*favorites*' when assigning accounting or re-allocating. We apologize for the delayed notice in communicating this AXOL update/ correction.

If you have any questions or concerns, please email ccsc@usda.gov and a response will be provided.
