Interested in learning more about meditation and mindfulness-based stress reduction? Checkout the National Institute of Health link below to learn more about the scientific evidence which suggest that “mindfulness meditation—a mind-body practice which cultivates abilities to maintain focused and clear attention and develop increased awareness of the present—may help reduce symptoms of stress, including anxiety and depression.” [https://www.nccih.nih.gov/health/providers/digest/mind-and-body-approaches-for-stress](https://www.nccih.nih.gov/health/providers/digest/mind-and-body-approaches-for-stress)

**Weekly Guided Breaks**

**Synopsis:** Mindfulness Meditation is a simple, effective method that can help us be more productive and face setback with resiliency. The right side of our brain, which is responsible for creating new ideas, will increase in activity when for those who meditate regularly. As a result, improved creativity, engagement, and productivity are often a result. To see the weekly guided breaks schedule; please click the link below.
